

LIVINGSTON COUNTY

SUSTAINABLE ENERGY SUCCESS

ComEd works closely with its economic development allies to leverage our top-performing electric reliability, the competitive Illinois energy market, and our business-focused energy efficiency program to help power innovation and create jobs.

Since 2008, over **200** Livingston County businesses have participated in the ComEd[®] Energy Efficiency Program, earning over **\$1.2 million** in total business incentives. These businesses have saved over **15,270,000 kWh** on their annual electric bills.

GREENHOUSE GAS EMISSIONS EQUIVALENT

Livingston County businesses' cumulative energy savings provides an annual reduction in carbon dioxide emissions equivalent to:

1,760 homes
powered for
one year or

10,560 acres
of U.S. forests
in one year or

1,750 cars
removed from the
road for one year

The ComEd Energy Efficiency Program offers incentives, technical services and whole-building solutions to help businesses use energy more efficiently. For more information, visit [ComEd.com/BizIncentives](https://www.comed.com/BizIncentives), call **855-433-2700** during normal business hours to speak with a representative or email us at BusinessEE@ComEd.com.

SOLAR ENERGY

Solar energy has started generating significant interest across northern Illinois. Livingston County businesses interconnected **16** new solar systems to our grid, resulting in **168 kW** of new generation capacity. To learn more about our Solar Energy offering visit [ComEd.com/Solar](https://www.comed.com/Solar).
